

## German Prisoners Passing Through Ypres

Procession of captured German prisoners passing thru wrecked Ypres on their way to the concentration camp behind the lines. The photo was taken during the battle of Menin Road. It shows the city laid waste by terrific bombardment.

## More Proof of German Perfidy

LONDON, Dec. 28.—Another proof of the German disregard of promises and agreements has been furnished in the British advance toward Cambrai. Some time ago Germany signed a solemn promise with Great Britain providing that no prisoners of war should be employed within nineteen miles of the front line. But two Russian prisoners were found by the British in German dugouts at Anneux, which was barely four miles from the lines, as they lay at the opening of the Cambrai attack. Moreover, these Russians had seen a party of 300 to 400 British prisoners at work near Cambrai, about eight miles from the old front lines.

The Russians told a pitiful story of ill treatment and suffering. They had to subsist, under German regulations, on half a pound of bread and some grass soup daily. As punishment for minor offenses they were strung up to poles, with their feet just touching the ground. Men were bayoneted or shot for refusal or inability to work, until, from one cause or another, only 260 men remained out of a camp of 500 prisoners.

### POWER QUESTION STOPS CONTRACTS

WASHINGTON, D. C., Dec. 28.—Orders have been issued that no new war contracts shall be placed in Buffalo before the war industries board has certified that there is power for their manufacture. The Canadian authorities have been assured that the 100,000 horse power imported from Canada will be used only for the manufacture of war products.

## The Archbishop of York Coming

The Right Honorable and Most Reverend Cosmo Gordon Lang, archbishop of York, will come to the United States in 1918 to preach during Lent at Trinity church in New York City. He will probably speak in other parts of the country in an effort to further the friendly feeling between the United States and Great Britain.

### EXACTNESS

All of our prescription work is handled by graduate pharmacists—men who have been especially trained to take care of your prescriptions. Our work is handled in the most skillful manner, checking and double-checking each operation which is your absolute assurance against the possibility of error. There is no extra charge for our extra particular prescription service. Bring your next prescription to us and make sure that it is compounded just as the doctor desires.

## Military Academy Exams Are Coming

WASHINGTON, D. C., Dec. 28.—Congressman Nick Sinnott has been called upon by the war department and the navy department to designate a cadet for the military academy and a midshipman for the naval academy, to take official examinations for admission during the spring of 1918. He will make designations of principals and alternates to fill both these vacancies on the basis of a competitive examination to be held on January 9, 1918, by the United States Civil Service commission simultaneously in the following eight cities in his district:

Klamath Falls, Lakeview, Ontario, Bend, Baker, LaGrande, Pendleton and The Dalles. Candidates should report to local civil service secretary at the post office at 9 o'clock a. m. on that day. Any young man of the required age is eligible to enter this competition who is now, and has since December 1, 1917, been an actual bona fide resident of the Second Oregon district. Candidates for admission to the military academy at West Point must not be under 17 nor over 22 years of age on date of admission; to the naval academy, between the ages of 16 and 20 years on date of official examination.

The competitive examination will probably cover the following subjects: Algebra, Geography, History, English composition and Literature, Plane Geometry and English Grammar. Those desiring to take the examination should write to Congressman Sinnott, 242 House of Representatives, Washington, D. C., at once, for sample questions and further information. It is important that each should also state whether he prefers designation to the military or naval academy.

## Girls Are Bound To Put on Style

LONDON, Dec. 21.—Girl workers in the danger buildings at Woolwich arsenal are not allowed to wear jewelry. They have therefore hit on the idea of wearing colored shoe laces. The cap shop girls appeared one morning with bright emerald green ribbons on their shoes, much to the envy of other departments. The next morning the whole factory was in the fashion, says Doctor A. K. Foxwell, the principal supervisor. Shoes were tied with blue, pink, red, white ribbons; with anything but the government boot lace of untanned leather. The fashion spread to the office, and women clerks paraded the platform during the dinner hour with resplendent shoe laces.

### "PREVIOUS" OBITUARY WORKS GREAT HARDSHIP

PEKING, Dec. 28.—Erroneous death announcements are extremely dangerous in China. The Jih Pao, one of the leading daily papers printed in Chinese in Peking, was completely wrecked because of an announcement it printed of the death of General Chiang Kuei-ti of Jehol. General Chiang was not dead, and thirty of his soldiers who happened to be in Peking, visited the newspaper office and demolished it completely, charging that the paper had endeavored to ruin the political career of their leader. The soldiers smashed the premises, piled all the type, broke the windows and demolished the office furniture.

### General Chiang Kuei-ti of Jehol.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are

## BIG EATERS GET KIDNEY TROUBLE

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACK ACHE

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

## Now We Know Why We Went To War

AMSTERDAM, Dec. 15.—(Correspondence of the Associated Press)—The German people now are being told that the United States went into the war, not to make the world safe for democracy, but in order that American capital might acquire the potash mines of Alsace.

Professor Roth of Griefswald University, in an article in the Vossische Zeitung, says: "American troops, we hear, are now occupying a portion of the French front. It is quite possible that they will soon appear along the Rhine-Rhone canal, in order to establish American claims to the potash mines there, seeing that America's peaceful designs on our potash in 1909-10 (by purchase) were defeated by the passage of the German potash law, which prohibits foreign ownership. "Along with coal and iron, potash is Germany's strongest weapon, and if the best of it should be taken away from her, she would be deprived of the best economic club she can wield against the United States. Without the 250,000 tons of potash fertilizer which the Americans annually import from Germany in peace time, their cotton, tobacco, sugar and fruit crops would be in perpetual jeopardy. So it is necessary that our world monopoly in potash should remain intact. It will enable us to demand in exchange certain necessary raw materials from our present foes. Our watchword must be: Not one inch of potash bearing soil to the enemy."

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

### FIRST MONTANA WOMAN FRANKS SINTER OF CHARGE

POPLAR, Mont., Dec. 28.—What is believed to have been the first jury composed of entirely of women ever empaneled in this state recently tried a woman on a charge of assaulting a man, and found her not guilty. Mrs. George Craig was alleged to have met C. T. Dickey in a bank here and bloodied his nose in an altercation following an unsuccessful suit she had brought to recover compensation for nursing.

## North Halifax and Harbor and the Relief Officials From New York

The view over North Halifax shows the section of the city which was practically destroyed. An army of relief workers are searching the ruins for the dead and wounded, and relief trains are being sent from many points. The staff of the Red Cross relief train, hurried to the scene from New York, is shown. From left to right they are: Ellis Russell, Captain A. L. Boyce, military commander of the train; Miss Jessie Forbes, relief worker; Miss A. G. Olney, director of the Atlantic division of the Red Cross, and Captain Albert R. Goodman, Medical Corps.

### DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the day's indigestible waste, sour bile and poisonous toxins; thus cleansing, stomach, liver and bowels the previous sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying hot water and limestone phosphate on your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.
